Funghi

Funghi is a recessed ceiling light, with a front reflector which throws the light back from the source (55watt circular T5 lamp.)

With it's graceful bezel, Funghi delivers a perception of continuity between the light and the ceiling. When switched on, the light optically dissolves the contrast between the two.

Features:

- Aluminium body with a smooth white finish
- Ø 570 mm
- Dimmable version: Push or DALI
- Electronic driver included

PERFORATED

MICROPRISMATIC

The Victorian Government has announced its intention to close the [Victorian Energy Efficiency Target \(VEET\)](#) scheme by the end of 2015, saving the majority of Victorian households paying an extra \$50 on their energy bills by transitioning to an energy savings program that isn't cross subsidized by consumers.

Our online clearance store is now up and running, with many end-of-line or discontinued ranges available.

With limited quantities available, our store offers great savings and all pricing includes shipping within Australia.
