SALT

A suspended LED pendant that combines the features of an industrial high-bay with the aesthetics and elegance of interior design.

As well as achieving excellent heat control and offering up to 8000 Lm output, the power device on SALT is integrated into the pendant itself, meaning the fitting can be hung at any height and interior designs can be created in large spaces.

Despite it's high lumen package, the design for housing the LED light source on SALT offers remarkable visual comfort thanks to a great diffuser, which distributes the light evenly and reduces glare, even from directly overhead.

Combining texturised matt black or white exteriors with white, gold and blood-orange interiors, SALT has already been awarded with the IF Design Award 2015. [See more...](#)

Corsair II LED

The new CORSAIR LED from ONE Lighting Group features outstanding efficiency up to 118 lumen per watt and high visual comfort via micro prismatic diffusion.

- PV1 (595 x 595mm)
- PB1 (622 x 622mm)
- SS1 (639 X 639mm)
- SS4 (1239 x 339mm)
- PV4 (1195 x 295mm)
- PR4 (1245 x 310mm)

features:

- sheet steel housing
- polished aluminium parabolic louvre
- PMMA diffuser
- remarkable efficacy of up to 118 lm/W (EEC A++),
- UGR <19 (in CCTs of 3000 K and 4000 K)
- easily regulated via DALI/1–10V LED drivers
- lifetime performance of 50,000/L80
- operational stability at ambient temperatures of -20°C to +35°C
- recessed or surface mount / suspended fixtures
- modern white RAL 9003 aesthetic
