## Welcome

This month, we are delighted to welcome **Alexander Hampshire** to the Sonic team.

Alex has recently moved to Australia from England and brings a wealth of experience in lighting and electrical design working on both commercial and residential projects.

He has completed a 5 year electrotechnical apprenticeship and Level 4 BTEC in lighting design.

## FORTY recessed LED

**FORTY** is the new recessed **profile** from Arkoslight with an LED light source that successfully creates a seamless strip of light.

With the almost limitless customisation offered in terms of length and characteristics, FORTY makes it possible to create seamless strips of light for any lighting project, regardless of the length required.

Featuring a white trim finish, polycarbonate diffuser and integral electronic driver, FORTY is available in 18.5watt, 25watt or 31watt LED modules and with 3000k or 4000k LED.

The range also includes dimmable versions via push/DALI and T5 versions, with seamless 24w, 39w or 54watt lamps.

## Kestra LED floodlight

240volt pole mounted streetlight featuring aluminium housing, MIR04 aluminium reflector, polycarbonate lens and black finish. Kestra has a tiltable spigot for pole top or side entry installation.

Available in 28/42watt, 57/56watt, 69/85watt or 113/138watt to suit various mounting heights.

Includes integral electronic control gear and 5000K LED (output of up to 93 lm/W)

Featuring CRI (Ra) 70, IP67 and IK10 ratings.

Also available on request:

- dimmable DALI/1-10v/intelligent dimming/step dimming
- other colours
