Copper pendants

A range of modern copper pendants with a simple aesthetic look, striking as either a single or multiple pendant.

Body options include long or short cylindrical body or conical-shaped body, all with an 80mm ceiling canopy and E27 lampholder.

Flex options include Black & White Fabric, Black Fabric, Clear PVC and Brown fabric, all available with matching cord grips and standard 1m length flex.

Finish available in:

- Brushed and clear lacquered (standard finish)
- Antiqued Copper
- Heat treated copper, lacquered
- Aged Copper (acid dipped to accelerate the patina, standard finish)

Wally

Miguel Mila's famous Cesta family of lamps, designed in 1962, feature the same white opal globe shape and formal elegance.

Updated to accommodate LED globes, the Cesta and Cestita lamps use traditional cherry wood or Sumatran pine frames with an adjustable handle. Its oval volume and handle make it an object-lamp to be placed both on tabletops and floors.

The Wally wall light is fixed by a metal arm and ring with a dark bronze finish.

With its delicate, unassuming light, this is an iconic traditional range with timeless appeal.

Horsham Golf Club

Sonic Lighting was pleased to design and supply the lighting for [Horsham Golf Club](#).

The club recently rebuilt after the club house was destroyed in the devastating 2009 bushfires. This project was designed by James Deans & Associates and all are extremely pleased with the final results.
