

Sonic Lighting will be closed for Melbourne Cup Day on Tuesday 3rd November

LED strip & extrusion

Presenting our LED strip, complete with 3M self-adhesive backing tape. Ideal for use in most commercial and residential applications, our range provides high lumen efficiency, good heat dissipation and 50,000hr life.

Our LED strip has more LEDs p/m to give a more even light distribution (rather than dots).

The range includes 14.4watt (120 LED/m) and 7.2watt (60 LED/m) IP20 strip in both warm and cool white, with 120° beam angle.

- 14.4w/m: 3000k (1200lm/m) / 4000k (1250lm/m)
- 7.2w/m: 3000k (600lm/m) / 4000k (650lm/m)

We also stock a range of aluminium extrusion options for easy mounting and heat dissipation, RGB colour changing strip and weatherproof IP65 strip.

Malaxos track spot

Recent advancements in LED technology & design mean that the new generation of track spots are high on lumen output and low on energy costs.

The Malaxos is a 33watt COB fitting ideal for many commercial applications. Providing a precise light with low spill, Malaxos offers exceptional colour rendering and the high light output also gives excellent colour reproduction.

The stand out feature is the ability to adapt the beam spread (24° / 36° / 50°) via interchangeable reflectors, making it perfect for retail, galleries or museums.

Available in black, white or silver and in 3000k or 4000k, the Malaxos offers versatility and quality at a price that's hard to beat.

Santa & Cole: Cesta family

Santa & Cole has again added to the Cesta family by re-introducing Cesta Metálica, the little sister of Miguel Milá's famous Cesta lamp, designed in 1962.

Originally, the Cesta supporting structure was made of Manila cane and the ball of light was made of plastic. Santa & Cole updated it 30 years later, using heat-curved cherry wood and an opal crystal ball, and adding an inline dimmer.

Now updated with LED technology, the Cesta Metálica is a miniature table lamp with a stainless steel structure, opal white polymer diffuser and leather handle.

Its oval volume and handle make it a desirable object-lamp to be placed both on tabletops and floors.

Rex Gorell Nissan, Geelong

Sonic Lighting is proud to be associated with the recently completed upgrade to the Rex Gorell Nissan car showroom in Geelong.

Excellent outcomes were achieved using AVIA LED panels, Poulter LED high-lumen downlights and FOX downlights.
